SUMMARY

Fresher Data Analyst / ML Enthusiast with hands-on experience in Excel, SQL, Power BI, Tableau, and Python. Skilled in data cleaning, analysis, and dashboard development to visualize trends and generate actionable insights. Possess basic knowledge of Machine Learning models and eager to apply data analytics and AI skills in real-world entry-level projects.

TECHNICAL SKILLS

- Data Analysis: Excel, SQL, Power BI, Tableau
- Programming: Python (Pandas, NumPy, Matplotlib)
- ML & AI: Regression, Classification, KNN, Naive Bayes, Supervised Learning
- Tools: Jupyter Notebook, GitHub, MySQL
- Soft Skills: Communication, Problem Solving

INTERNSHIP

Data Analytics Intern — Tap Savvy Network

Jan 2026 – Present | Remote

- Working on data collection, analysis, and reporting to support business decision-making.
- Creating dashboards and summaries using Excel and Power BI.
- Assisting in data cleaning and basic visualization tasks.
- Gaining hands-on experience with real-world datasets in a remote working environment.

PROJECTS

AI Job Market Trends Dashboard (Excel)

- Created an Excel dashboard to analyze AI job salaries, locations, and hiring trends using Pivot Tables and charts.

Sales Insights Dashboard (Power BI)

- Built a Power BI dashboard to track sales, revenue, and regional performance using data cleaning and basic DAX.

AI-Based Face Shape Recommendation System

- Developed an AI-based web app using Python, Flask, and OpenCV to detect face shape from uploaded images.
- Used Machine Learning to classify face shapes and recommend suitable spectacle frames and ornaments.

EDUCATION

Bachelor of Computer Science (BCS)

Deogiri Institute of Technology and Management Studies — 2023–2026

HSC (12th): 75% | SSC (10th): 86%
